

Students walk for a cause

Mount Kisco Elementary School recently participated in the "International Walk to School Day." According to the International Walk to School Day Web site, the event aims to raise awareness of how walkable a community is, raise concern for the environment, reduce congestion, pollution and speed near schools and bring community leaders, parents and kids together.

Right: Mount Kisco Elementary students proudly display their "International Walk to School Day" banner.

Below: Staff and students walk together, joining children around the world doing the same. The Mount Kisco fire and police departments assisted during the walk.

Below, right: Students pose with placards and banners as teachers look on.
