

TABLE OF CONTENTS

FOREWORD	F-1
EXECUTIVE SUMMARY	S-1
GLOSSARY	G-1
ACRONYMS AND ABBREVIATIONS	A-1
CHAPTER 1: DESCRIPTION OF THE PROPOSED ACTION	1-1
A. Project Overview	1-1
B. Project Description	1-3
Late Summer 1999	1-4
2000.....	1-5
2001.....	1-6
Mosquito Life Cycle	1-6
Mosquito Species	1-9
Characteristics of Mosquitoes	1-9
Mosquitoes as Virus Vectors	1-9
Known Mosquito-Borne Diseases.....	1-11
Public Health Impacts/Sickness from West Nile Virus.....	1-15
1999 Response to County West Nile Encephalitis Outbreak	1-17
1999 Control Activities	1-17
1999 Monitoring Exposures to Adulticides	1-17
STING.....	1-18
2000 Surveillance Activities	1-19
2000 Control Activities	1-19
2000 Monitoring Exposures to Adulticides	1-19
2001 Surveillance Activities	1-20
2001 Control Activities.....	1-20
2001 Monitoring Exposures to Adulticides	1-20
C. The Proposed Action	1-20
Vector Surveillance.....	1-22
Vertebrate (Animal) Surveillance	1-22
Human Surveillance	1-22
Larviciding	1-23
Overview.....	1-23
Application Considerations.....	1-24
Benefits of Larvicide Control Program.....	1-25
Adulticiding	1-25
Overview.....	1-25
Application Considerations.....	1-26
Benefits of Adulticiding Control Program.....	1-27
Public Notification and Monitoring	1-28
D. Environmental Review Process (SEQRA Review)	1-29
E. Format of the GEIS	1-29
F. Literature Cited	1-31

**CHAPTER 2: PESTICIDE REGULATIONS AND USAGE, AND OTHER REGULATORY 2-1
CONSTRAINTS**

A. Introduction	2-1
B. Descriptions of NYSDEC and USEPA Registration Processes	2-2
USEPA Pesticide Registration Process	2-2
NYSDEC Pesticide Registration Process	2-3
C. Pesticide Applicator Certification and Protection	2-4
Pesticide Applicator Certification and Training	2-5
Pesticide Applicator protection	2-5
Occupational Safety and Health Administration (OSHA)	2-5
Public Employees Safety and Health (PESH)	2-6
USEPA Worker Protection Standard (WPS).....	2-6
D. County Pesticide Regulations	2-7
Westchester County Pesticide Reduction Law	2-7
Pesticide Notification Law	2-8
E. Pesticide Usage in New York State.....	2-8
NYSDEC Reporting Requirements	2-8
Reported Pesticide Usage in Westchester County	2-9
Insecticides Used By Westchester County to Combat West Nile Virus.....	2-10
Larvicides.....	2-10
Adulticides	2-11
F. Pesticides That Would Likely be Used for Community-Scale Applications.....	2-12
Larvicide Composition	2-14
Active Ingredients	2-14
Inert Ingredients	2-15
Adulticide Composition	2-16
Active Ingredients	2-16
Inert Ingredients	2-17
G. Pesticides and Organic Farm Certification	2-18

**CHAPTER 3: OVERVIEW OF ASSESSMENT OF IMPACTS OF THE 3-1
COMPREHENSIVE PLAN**

CHAPTER 3.A: FRAMEWORK OF THE ANALYSIS..... 3.A-1

A. Introduction	3.A-1
Primary Issues	3.A-1
Analysis Approach	3.A-1
Larviciding and Adulticiding	3.A-1
Defining the Future Alternatives.....	3.A-2
Information in this Chapter	3.A-2
B. Examination of Data/Information on Insecticides	3.A-4
Larvicide Characteristics and Impact Analysis	3.A-5
Adulticides	3.A-6
Product Classification and Ingredients.....	3.A-8
Active Ingredients	3.A-8
Synergist.....	3.A-8
Inert or Other Ingredients.....	3.A-9
Additional Carriers /Additives	3.A-9
New York State Registered Adulticide Products to be Analyzed.....	3.A-9
Chemical Composition.....	3.A-9
Application Techniques and Recommended Application Amounts.....	3.A-10
Physical and Chemical Properties	3.A-11
Other Label Limitations	3.A-11
C. Drift/Deposition Modeling of Adulticides.....	3.A-12

Selection of Models.....	3.A-13
Modeling Approach	3.A-13
Modeling Results	3.A-14
Active Ingredients in Adulticides.....	3.A-14
Inerts in Adulticides	3.A-15
Potential Repeat Applications Per Year	3.A-15
D. Environment Types and Representative Areas.....	3.A-17
Environment Types	3.A-17
Residential Environment.....	3.A-17
Parks and Publicly Accessible Open Spaces	3.A-19
Drinking Water Supply	3.A-19
Natural Resources	3.A-19
Community Facilities and Institutional Uses	3.A-20
Commercial Uses	3.A-20
Industrial Uses	3.A-21
Representative Areas.....	3.A-21
Representative Area 1	3.A-22
Representative Area 2	3.A-22
Representative Area 3	3.A-22
Representative Area 4	3.A-22
Representative Area 5	3.A-22
Representative Area 6	3.A-22
Representative Area 7	3.A-23
Representative Area 8	3.A-23
Utilization of Information from Environment Types and Representative Areas.....	3.A-23
E. Exposure Scenarios	3.A-23
General Pathways/Scenarios	3.A-24
Public Health.....	3.A-24
Natural Resources	3.A-25
Exposure Pathways	3.A-25
Exposure Scenarios Within the Representative Areas	3.A-28
Representative Area 1	3.A-28
Representative Area 2	3.A-28
Representative Area 3	3.A-29
Representative Area 4	3.A-29
Representative Area 5	3.A-30
Representative Area 6	3.A-30
Representative Area 7	3.A-31
Representative Area 8	3.A-31
Worker Exposure	3.A-32
F. Regional Issues.....	3.A-32
Water Supply.....	3.A-32
Regional Stormwater Runoff	3.A-32
G. Application of Methodology	3.A-33
H. Literature Cited	3.A-33
CHAPTER 3.B: LAND USE, COMMUNITY FACILITIES, PUBLIC POLICY, AND ZONING	3.B-1
A. Introduction	3.B-1
B. Existing Conditions	3.B-2
Representative Area 1	3.B-2
Overview and Applicability	3.B-2
Environment Types	3.B-3
Summary of Outdoor Activities	3.B-6
Zoning and Public Policy	3.B-7
Representative Area 2.....	3.B-7
Overview and Applicability	3.B-7
Environmental Types	3.B-8

Summary of Outdoor Activities	3.B-10
Zoning and Public Policy	3.B-10
Representative Area 3	3.B-11
Overview and Applicability	3.B-11
Environmental Types	3.B-11
Summary of Outdoor Activities	3.B-13
Zoning and Public Policy	3.B-13
Representative Area 4	3.B-13
Overview and Applicability	3.B-13
Environment Types	3.B-14
Summary of Outdoor Activities	3.B-16
Zoning and Public Policy	3.B-16
Representative Area 5	3.B-16
Overview and Applicability	3.B-17
Environment Types	3.B-17
Summary of Outdoor Activities	3.B-19
Zoning and Public Policy	3.B-19
Representative Area 6	3.B-20
Overview and Applicability	3.B-20
Environment Types	3.B-21
Summary of Outdoor Activities	3.B-22
Zoning and Public Policy	3.B-23
Representative Area 7	3.B-23
Overview and Applicability	3.B-23
Environment Types	3.B-24
Summary of Outdoor Activities	3.B-25
Zoning and Public Policy	3.B-25
Representative Area 8	3.B-25
Overview and Applicability	3.B-25
Environment Types	3.B-26
Summary of Outdoor Activities	3.B-28
Zoning and Public Policy	3.B-28
C. Future Without the Proposed Action	3.B-28
D. Probable Impacts of the Proposed Action	3.B-29
Representative Area 1	3.B-29
Representative Area 2	3.B-30
Representative Area 3	3.B-31
Representative Area 4	3.B-31
Representative Area 5	3.B-32
Representative Area 6	3.B-32
Representative Area 7	3.B-32
Representative Area 8	3.B-32
Chapter 3.C: PUBLIC HEALTH.....	3.C-1
A. Introduction	3.C-1
B. Definitions	3.C-2
Mosquitoes and the Transmission of Viral Infections	3.C-2
Overview of Larvicides Evaluated	3.C-2
Overview of Adulticides Evaluated.....	3.C-3
Organophosphates	3.C-4
Pyrethroids	3.C-4
Inert Ingredients	3.C-4
C. Current and Future Conditions Without the Proposed Action	3.C-6
Introduction	3.C-6
Potential Public Health Characteristics of Future Outbreaks without the Proposed Action	3.C-7
Overview	3.C-7
Public Health Characteristics of West Nile Virus Outbreaks	3.C-7

Potential Characteristics of Future Outbreaks – No Action Scenario	3.C-9
Potential Characteristics of Future Outbreaks – As-of-Right Scenario.....	3.C-11
Risk to Public Health From Existing Adulticide Use.....	3.C-12
D. Probable Impacts of the Proposed Action	3.C-13
Summary of Potential Public Health Effects of Insecticides – Literature Review	3.C-13
Skin and Eye Irritation	3.C-15
Gastrointestinal	3.C-15
Respiratory Effects Including Asthma	3.C-15
Immunologic/Allergic.....	3.C-16
Multiple Chemical Sensitivity (MCS).....	3.C-16
Neurological.....	3.C-16
Cognitive Developmental Disabilities	3.C-16
Endocrine Disruption.....	3.C-17
Developmental/Reproductive Including Birth Defects	3.C-17
Cancer	3.C-17
Risk to Public Health from Use of Proposed Insecticides – Risk Assessment.....	3.C-17
Hazard Identification.....	3.C-18
Exposure Analysis.....	3.C-18
Toxicity Analysis.....	3.C-27
Risk Characterization.....	3.C-41
Uncertainty Analysis.....	3.C-57
Summary of Risk Assessment Calculations	3.C-61
E. Conclusions	3.C-63
Literature Review.....	3.C-63
Risk Assessment	3.C-63
Overall Conclusions.....	3.C-66
F. Literature Cited	3.C-68
CHAPTER 3.D: NATURAL RESOURCES	3.D-1
A. Introduction	3.D-1
B. Methodology	3.D-2
Introduction.....	3.D-2
Larviciding	3.D-2
Adulticiding	3.D-2
Approach to the Larval Mosquito Control Assessment.....	3.D-3
Literature Review.....	3.D-3
Assessment.....	3.D-3
Approach to the Adult Mosquito Control Assessment.....	3.D-4
Existing Conditions.....	3.D-5
Literature Review.....	3.D-5
Active Ingredients.....	3.D-5
Inerts	3.D-6
Review of Empirical Studies	3.D-6
Ecological Risk Assessment	3.D-7
Screening-Level (Tier I) Risk Assessment	3.D-7
Detailed (Tier II) Risk Assessment.....	3.D-8
Uncertainty Analysis.....	3.D-9
Future Without the Proposed Action.....	3.D-9
Probable Impacts of the Proposed Action.....	3.D-9
C. Existing Conditions	3.D-9
Habitats	3.D-9
Wildlife	3.D-10
Endangered or Threatened Species	3.D-11
D. Ecological Risk Assessment.....	3.D-11
Screening-Level (Tier I) Risk Assessment.....	3.D-12
Conservative (Worst-Case) Assumptions for the Screening-Level (Tier I) Analysis	3.D-12
Biota Exposed to the Adulticides.....	3.D-13

Maximum Exposure Concentration	3.D-13
Active Ingredient Characteristics	3.D-13
Exposure Concentration (Characteristics).....	3.D-13
Bioconcentration through the Food Chain	3.D-14
Hazard Quotients and Uncertainty Factors	3.D-15
Potential Receptors in the Ecosystem	3.D-16
Exposure Scenarios	3.D-16
Exposure and Benchmarks	3.D-17
Risk Characterization	3.D-17
Terrestrial Receptors with Direct Exposure	3.D-17
Plants.....	3.D-17
Inhalation by Mammals	3.D-18
Inhalation by Birds.....	3.D-18
Ingestion by Preening.....	3.D-19
Mammals Drinking from Puddles.....	3.D-19
Bees.....	3.D-20
Aquatic Receptors in Ponds Exposed to Drift.....	3.D-20
Aquatic Receptors in Wetlands Exposed to Runoff.....	3.D-21
Terrestrial Receptors Exposed Through Terrestrial-Based Food Chains	3.D-25
Terrestrial Receptors Exposed Through Aquatic-Based Food Chains	3.D-25
Summary of Tier I Computations.....	3.D-25
Detailed (Tier II) Risk Assessment	3.D-25
Summary of the Tier II Analysis.....	3.D-26
Terrestrial Receptors With Direct Exposure	3.D-26
Aquatic Receptors in Ponds Exposed to Drift.....	3.D-26
Aquatic Receptors in Wetlands Exposed to Runoff.....	3.D-26
Terrestrial Receptors Exposed through the Aquatic Based Food Chains.....	3.D-26
Terrestrial Receptors Exposed Through Terrestrial Based Food Chains	3.D-26
Risk Characterization	3.D-29
Terrestrial Receptors with Direct Exposure	3.D-29
Aquatic Receptors in Ponds Exposed to Drift.....	3.D-30
Aquatic Receptors in Wetlands Exposed to Runoff.....	3.D-37
Generalized Wetland.....	3.D-38
County Specific Streams and Brooks.....	3.D-38
County-Specific Coastal Inlet Bay/Estuary.....	3.D-39
Reservoirs	3.D-39
Summary	3.D-49
Uncertainty Analysis	3.D-50
Derivation of Toxicity Benchmark Values	3.D-50
Exposure Pathways	3.D-51
Terrestrial Receptors With Direct Exposure	3.D-51
Aquatic Receptors in Ponds Exposed to Drift.....	3.D-51
Aquatic Receptors in Wetlands Exposed to Runoff.....	3.D-51
Terrestrial Receptors Exposed Through the Terrestrial-Based and Aquatic-Based.....	3.D-51
Food Chains	
Synergism	3.D-52
Inerts	3.D-52
Potential Cumulative Effects of Active Ingredients Applied Within Westchester	
County With Background	
E. Future Without the Proposed Action	3.D-53
F. Probable Impacts of the Proposed Action	3.D-54
Potential for Adverse Impacts From Larvicides.....	3.D-54
Methoprene	3.D-54
Temphos	3.D-55
Bti.....	3.D-56
Bs	3.D-56
Monomolecular Surface Films.....	3.D-56

Summary	3.D-57
Potential for Adverse Impacts from Adulticides	3.D-57
Active Ingredients	3.D-57
Terrestrial Receptors With Direct Exposure	3.D-57
Ecological Risk Assessment	3.D-57
Empirical Studies	3.D-58
Insects	3.D-58
Insectivorous Birds	3.D-60
Summary	3.D-60
Aquatic Receptors in Ponds Exposed to Drift	3.D-61
Ecological Risk Assessment	3.D-61
Empirical Studies	3.D-62
Summary	3.D-63
Aquatic Receptors in Wetlands Exposed to Runoff	3.D-64
Ecological Risk Assessment	3.D-64
Empirical Studies	3.D-66
Summary	3.D-67
Receptors Exposed Through Terrestrial-Based and Aquatic-Based Food Chains	3.D-67
Summary	3.D-67
Inerts	3.D-68
Potential Cumulative Effects from the Application of Adulticides and Larvicides	3.D-68
Endangered or Threatened Species	3.D-68
Adulticide Application Methods	3.D-69
Movement of Trucks	3.D-70
Movement of Aircraft Used for Aerial Application	3.D-70
Noise from the Truck or Aircraft During Application	3.D-70
Lights From the Truck Application or Aircraft	3.D-70
Other Human Disturbance Associated With the Application	3.D-70
G. Conclusions	3.D-70
Terrestrial Receptors With Direct Exposure	3.D-72
Aquatic Receptor in Ponds Exposed to Drift	3.D-72
Aquatic Receptors in Wetlands Exposed to Runoff	3.D-73
Potential Significant Adverse Impacts from the <i>Comprehensive Plan</i>	3.D-74
H. Literature Cited	3.D-76
CHAPTER 3.E: WATER SUPPLY	3.E-1
A. Introduction	3.E-1
B. Existing Conditions	3.E-1
Overview	3.E-1
Westchester County Water Supplies	3.E-2
New York City Water Supply System	3.E-3
Surface-Water Supply Watersheds	3.E-3
Croton and Kensico Drainage Areas	3.E-4
Catskill System	3.E-5
Delaware System	3.E-5
The Kensico and Hillview Reservoirs	3.E-5
Groundwater Supply	3.E-5
Overview	3.E-5
Groundwater Protection Zones	3.E-6
Safe Drinking Water Act and New York Drinking Water Standards	3.E-6
Federal Standards and Guidance	3.E-6
New York State Standards	3.E-7
Enforcement	3.E-7
Existing Levels of Pesticides in Water Supplies	3.E-7
C. Future Without the Proposed Action	3.E-8
D. Methods of Analysis	3.E-8

Overview	3.E-8
Application Amounts	3.E-9
Surface Water.....	3.E-9
Croton and Kensico Systems.....	3.E-9
Hillview Reservoir	3.E-10
Groundwater.....	3.E-11
Overview of Methodology	3.E-11
E. Probable Impacts of the Proposed Action	3.E-12
Surface-Water Supply	3.E-12
Analysis Results.....	3.E-12
Comparison to Standards and Health Advisory Levels (HALs)	3.E-13
Conclusions of Impacts on Surface-Water Supply.....	3.E-14
Groundwater Supply	3.E-14
Analysis Results.....	3.E-14
Comparison to Standards and Health Advisory Levels (HALs)	3.E-15
Conclusions of Impacts on Groundwater Supply.....	3.E-15
F. Literature Cited.....	3.E-15
CHAPTER 3.F: WATER QUALITY	3.F-1
A. Introduction	3.F-1
B. Existing Conditions	3.F-1
Use Classifications of Major Westchester County Surface Waters.....	3.F-1
Lower Hudson River	3.F-20
Long Island Sound	3.F-21
New York City Water Supply Watersheds.....	3.F-23
Waterbodies in Representative Areas.....	3.F-24
Representative Area 1	3.F-24
Representative Area 2	3.F-24
Representative Area 3	3.F-24
Representative Area 4	3.F-25
Representative Area 5	3.F-25
Representative Area 6	3.F-25
Representative Area 7	3.F-25
Representative Area 8	3.F-26
C. Future Without the Proposed Action	3.F-26
D. Probable Impacts of the Proposed Action	3.F-28
Larvicides	3.F-28
Adulticides	3.F-28
Organophosphates	3.F-28
Pyrethroids	3.F-33
Inerts	3.F-37
Summary	3.F-37
E. Literature Cited.....	3.F-38
CHAPTER 3.G: HAZARDOUS MATERIALS / CONTAMINATED MATERIALS	3.G-1
A. Introduction	3.G-1
B. Composition of Insecticides	3.G-1
Larvicides	3.G-1
Adulticides	3.G-2
C. Handling of Materials.....	3.G-2
Pertinent Regulations.....	3.G-2
Transport.....	3.G-2
Storage	3.G-3
Waste Disposal.....	3.G-3
Potential Spills Of The Products	3.G-3
D. Probable Impacts of the Proposed Action	3.G-5

Spills	3.G-5
Application of Products.....	3.G-5
CHAPTER 3.H: SOCIOECONOMIC CONDITIONS.....	3.H-1
A. Introduction	3.H-1
B. Methodology	3.H-1
Issues.....	3.H-1
Direct Medical Costs.....	3.H-1
Loss of Income.....	3.H-1
Tourism and Outdoor Recreational Activities.....	3.H-1
Costs for Future Alternatives	3.H-2
Approach for Determining Comparative Costs.....	3.H-2
Direct Medical Costs.....	3.H-2
Loss of Personal Income	3.H-2
Program Costs.....	3.H-3
Estimated Costs.....	3.H-3
Direct Medical Expenses	3.H-3
Loss of Personal Income	3.H-4
Costs for Future Alternatives	3.H-5
C. Probable Impacts of the Proposed Action	3.H-6
Direct Medical Expenses.....	3.H-6
Loss of Personal Income	3.H-7
Tourism and Outdoor Recreational Activities.....	3.H-7
Tourism.....	3.H-7
Outdoor Recreation	3.H-8
Program Costs.....	3.H-8
CHAPTER 3.I: OPEN SPACE RESOURCES	3.I-1
A. Introduction	3.I-1
B. Existing Conditions	3.I-1
C. The Future Without the Proposed Action.....	3.I-1
D. Probable Impacts of the Proposed Action	3.I-2
CHAPTER 3.J: CULTURAL RESOURCES.....	3.J-1
A. Introduction	3.J-1
B. Existing Conditions and the Future Without the Proposed Action.....	3.J-1
C. Probable Impacts of the Proposed Action	3.J-1
CHAPTER 3.K: VISUAL RESOURCES.....	3.K-1
CHAPTER 3.L: TRANSPORTATION	3.L-1
A. Introduction	3.L-1
B. Application Overview and Major Transportation Routes Within the Representative	3.L-1
Study Areas	
Ground Applications	3.L-1
Overview.....	3.L-1
Aerial Applications	3.L-2
CHAPTER 3.M: AIR QUALITY.....	3.M-1
A. Introduction	3.M-1
B. Air Quality Standards.....	3.M-1
National and State Air Quality Standards	3.M-1
State Implementation Plan (SIP).....	3.M-2
C. Future Without the Proposed Action.....	3.M-2
D. Probable Impacts of the Proposed Action	3.M-3

CHAPTER 3.N: NOISE	3.N-1
A. Introduction	3.N-1
B. Noise Principles and Existing Noise Levels	3.N-1
Existing Conditions	3.N-1
Community Response To Changes In Noise Levels	3.N-2
C. Future Without the Proposed Action	3.N-3
D. Probable Impacts of the Proposed Action	3.N-3
Impacts from Aircraft Operations	3.N-3
Impacts from Truck Operations.....	3.N-3
Summary of Potential Noise Impacts	3.N-4
CHAPTER 3.O WATERFRONT REVITALIZATION PROGRAM	3.O-1
A. Coastal Zone Management Programs	3.O-1
Analysis Of Waterfront Policies.....	3.O-1
CHAPTER 3.P: UNAVOIDABLE ADVERSE IMPACTS.....	3.P-1
A. Public Health	3.P-1
B. Natural Resources.....	3.P-1
Direct Exposure.....	3.P-1
Stormwater Runoff.....	3.P-2
C. Water Quality	3.P-2
CHAPTER 3.Q: IRREVERSIBLE AND IRRETRIEVABLE COMMITMENT OF	3.Q-1
RESOURCES	
CHAPTER 3.R: ENERGY	3.R-1
CHAPTER 3.S: ALTERNATIVES.....	3.S-1
A. Introduction	3.S-1
B. Alternatives Considered	3.S-1
Future Without The Proposed Action.....	3.S-1
Summary of Alternatives To The Proposed Action	3.S-2
Additional Description of Alternatives	3.S-3
Future Without the Proposed Action Alternatives	3.S-3
Comprehensive Plan Without the Adulticiding Component Alternative	3.S-4
Additional Larvicide Programs Alternative	3.S-4
Additional Adulticide Materials Alternative	3.S-4
Alternative Technologies Alternatives.....	3.S-4
Chemicals Not Registered in New York State For Mosquito Control Alternative.....	3.S-5
Dependence on Repellent Chemicals Alternative	3.S-6
Biological Alternatives.....	3.S-6
Open Marsh Water Management (OMWM) Alternative	3.S-6
C. Probable Impacts of Alternatives	3.S-6
Future Without the Proposed Action Alternatives.....	3.S-7
No Action Alternative	3.S-7
As-of-Right Alternative	3.S-7
Summary of Future Without the Proposed Action Alternatives.....	3.S-8
Comprehensive Plan Without the Adulticiding Component Alternative	3.S-8
Summary of the Comprehensive Plan Without the Adulticiding Component Alternative.....	3.S-9
Additional Larvicide Programs	3.S-9
Summary of Additional Larvicide Programs Alternative.....	3.S-10
Additional Adulticide Materials Alternative	3.S-10
Summary of Additional Adulticide Materials Alternative	3.S-11
Alternative Technologies	3.S-11
Electrocuting Devices	3.S-11
Mosquito Magnet™ and Insectiviro™	3.S-12

Electronic Repellents	3.S-12
Summary of Alternative Technologies Alternative.....	3.S-13
Chemicals Not Registered in New York State For Mosquito Control	3.S-13
USEPA-Exempt Chemicals	3.S-13
SureDye	3.S-14
Summary of Chemicals Not Registered in New York State For Mosquito Control.....	3.S-14
Alternative	
Dependence on Repellent Chemicals	3.S-15
DEET	3.S-15
Commercial Products.....	3.S-15
Plants.....	3.S-16
Summary of Dependence on Repellent Chemicals Alternative	3.S-16
Biological Alternatives.....	3.S-16
Fish and Amphibians	3.S-17
Insect Eating Animals	3.S-18
Human Vaccination Alternative.....	3.S-21
Summary of Biological Alternatives.....	3.S-22
Open Marsh Water Management (OMWM) Alternative	3.S-23
Summary of Open Marsh Water Management Alternative.....	3.S-23
D. Summary	3.S-24
E. References.....	3.S-24
CHAPTER 3.T: MITIGATION.....	3.T-1
A. Overview	3.T-1
B. Public Health.....	3.T-1
C. Natural Resources	3.T-2
Direct Exposure.....	3.T-2
Stormwater Runoff.....	3.T-2
D. Water Quality	3.T-3
E. Hazardous Materials/Contaminated Materials	3.T-3

LIST OF TABLES

1-1	The Four Stages of the Mosquito Life Cycle	1-7
1-2	Life Cycle Characteristics for Various Mosquito Genera	1-8
1-3	Mosquito Habitat Characteristics	1-10
1-4	Known Mosquito Vectors and Related Diseases.....	1-12
1-5	West Nile Virus Positive Test Results in the United States for Year 2000	1-13
1-6	West Nile Virus Positive Test Results in the United States for Year 2001	1-14
2-1	Pesticides Applied by Commercial Applicators ¹ in 1999 in Westchester County and New York ...	2-10
	State	
2-2	Pesticide Usage Summary to Control West Nile Virus 1999 through July 2001	2-11
2-3	Larvicides Currently Registered in New York State that could be Applied on a	2-12
	Community-Scale Basis	
2-4	Adulticides Currently Registered in New York State that could be Applied on a.....	2-13
	Community-Scale Basis	
3.A-1	Chemical Composition of Adulticides	3.A-10
3.A-2	Adulticide Active Ingredient Application Amounts.....	3.A-11
3.A-3	Active Ingredient Concentration Modeling Results	3.A-14
3.A-4	Active Ingredient Deposition Level Modeling Results	3.A-15
3.A-5	Representative Areas and Environment Types.....	3.A-18
3.B-1	Representative Area Public Schools.....	3.B-4
3.C-1	Comparison of Inert Ingredients to Typical Levels of Toluene in the Environment.....	3.C-6
3.C-2	Comparison of Inert Ingredients to Typical Levels of Xylene in the Environment.....	3.C-6
3.C-3	Projected Potential West Nile Infections and Related Illnesses: Future No Action Scenario	3.C-10
3.C-4	Relevant Exposure Pathways	3.C-22
3.C-5	Exposure Point Concentrations in Various Media.....	3.C-26
3.C-6	USEPA-Recommended Non-Cancer Toxicity Criteria	3.C-41
3.C-7	USEPA-Recommended Cancer Toxicity Criteria	3.C-42
3.C-8	Marging of Exposure Analysis of RfDs	3.C-42
3.C-9	All Populations and Pathways—Summary of Non-Cancer Risks (Average Exposures)	3.C-44
3.C-10	All Populations and Pathways—Summary of Non-Cancer Risks	3.C-46
	(Reasonable Maximum Exposures)	
3.C-11	All Populations and Pathways—Summary of Incremental Cancer Risks	3.C-49
	(Average Exposures)	
3.C-12	All Populations and Pathways—Summary of Incremental Cancer Risks	3.C-50
	(Reasonable Maximum Exposures)	
3.C-13	Margin of Exposure Analysis (Based on Combined Child and Adult Resident Exposures).....	3.C-51
3.C-14	Evaluation of Acute Exposures	3.C-53
3.C-15	Occupational Exposure Limits	3.C-54
3.C-16	Average Deposition Level from Truck versus Aerial Applications (mg/m ²)	3.C-54
3.C-17	82-Day Average Active Ingredient Concentration Ratio in Environmental Media Based	3.C-55
	on 8 Adulticide Applications in One Season Versus 4 Applications	
3.C-18	Total Hazard Indices for Chronic and Time-Weighted Acute	3.C-56
	Exposures Young Child Resident	
3.C-19	Total Hazard Indices for Chronic and Time-Weighted Acute Exposures—Adult Resident	3.C-56
3.C-20	Total Incremental Cancer Risks for Chronic and Time-Weighted	3.C-57
	Acute Exposures—Young Child Resident	
3.C-21	Total Cancer Risks for Chronic and Time-Weighted Acute Exposures—Adult Resident	3.C-57
3.C-22	Risk Assessment Summary	3.C-62
3.D-1	Hazard Quotients for Non-Target Mammals Exposed Through Inhalation to Active.....	3.D-18
	Ingredients—Tier 1	
3.D-2	Hazard Quotients Including Uncertainty Factors for Birds Exposed to Active Ingredients.....	3.D-18
	Through Inhalation—Tier 1	
3.D-3	Hazard Quotients for Direct Exposure of Birds Exposed Through Preening to Active	3.D-19
	Ingredients—Tier 1	

3.D-4	Hazard Quotients for Dogs Exposed by Drinking from Puddles Exposed to Active Ingredients—Tier 1	3.D-20
3.D-5	Hazard Quotients and Uncertainty Factors (UF) for Bees Exposed to Active Ingredients in Adulticides Used to Control Mosquito-Borne Diseases – Tier 1	3.D-22
3.D-6	Malathion Hazard Quotients Based on New York State Surface Water Quality Criteria and Estimated Exposure Concentrations for Single Applications of Adulticides—Tier 1	3.D-22
3.D-7	Hazard Quotients for Freshwater Aquatic Species Exposed to Active Ingredients in Ponds and Wetlands—Tier 1	3.D-23
3.D-8	Hazard Quotients for Marine and Estuarine Species Exposed by Runoff to Single Application of Active Ingredients—Tier 1	3.D-24
3.D-9	Hazard Quotients for Species Exposed to a Single Application of Active Ingredients Through the Terrestrial Food Chain with no Degradation—Tier 1	3.D-27
3.D-10	Hazard Quotients for Species Exposed to Four Applications of Active Ingredients Through the Terrestrial Food Chain over 90 Days with Degradation on Food Surfaces—Tier 1	3.D-28
3.D-11	Hazard Quotients and Uncertainty Factors for Receptors Exposed to Active Ingredients Through Aquatic Food Chains—Tier 1	3.D-29
3.D-12	Hazard Quotients for Playland Lake—Tier II	3.D-31
3.D-13	Hazard Quotients for Playland Lake Based on Marine and Estuarine Toxicological Benchmarks—Tier II	3.D-32
3.D-14	Hazard Quotients for Boating Pond—Tier II	3.D-33
3.D-15	Hazard Quotients for Swan Pond—Tier II	3.D-34
3.D-16	Hazard Quotients for Blue Mountain (Upper) Pond—Tier II	3.D-35
3.D-17	Hazard Quotients for Blue Mountain (Lower) Pond—Tier II	3.D-36
3.D-18	Hazardous Quotients for Freshwater Aquatic Species Exposed to Adulticides in Runoff in Generalized Tier II Analysis	3.D-40
3.D-19	Hazard Quotients for Estuarine Aquatic Species Exposed to Adulticides in Runoff in Generalized Tier II Analysis	3.D-41
3.D-20	Hazardous Quotients for Aquatic Organisms Exposed to by Truck Application of Adulticide Active Ingredients in Freshwater Habitats in Streams of Representative Areas—Tier II	3.D-42
3.D-21	Hazardous Quotients for Aquatic Organisms Exposed by Aerial Application to Adulticide Active Ingredients in Freshwater Habitats in Streams of Representative Areas—Tier II	3.D-43
3.D-22	Fresh Water Chronic Hazard Quotients for Milton Harbor After Accounting for Percent of Watershed Sprayed, 1-day Before Rain Maximum 96-hr Concentration with Four Applications and Aqueous Degradation, Partitioning During Runoff, and Dilution in the Harbor—Tier II	3.D-44
3.D-23	Estuarine Chronic Hazard Quotients for Milton Harbor After Accounting for Percent of Watershed Sprayed, 1-day Before Rain Maximum 96-hr Concentration with Four Applications and Aqueous Degradation, Partitioning During Runoff, and Dilution in the Harbor—Tier II	3.D-45
3.D-24	Hazard Quotients for Reservoirs Receiving Runoff via Ground Application—Tier II	3.D-47
3.D-25	Hazard Quotients for Reservoirs Receiving Runoff via Adulticide Application by Air—Tier II	3.D-48
3.E-1	Maximum Predicted Average Concentrations of Active Ingredients in Surface-Water Supply Sources (in mg/L)	3.E-12
3.E-2	Maximum Predicted Average Concentrations of Inert Ingredients in Surface-Water Supply Sources (in mg/L)	3.E-13
3.F-1	Westchester County Watersheds and Waterbodies	3.F-2
3.F-2	NYSDEC Standards for Fresh and Saline Waters Found Within Westchester County	3.F-15
3.F-3	Water Quality Impaired Segments in Westchester County	3.F-17
3.J-1	Representative Area Cultural Resources	3.J-2
3.M-1	National and New York State Ambient Air Quality Standards	3.M-2
3.N-1	Noise Levels of Common Sources	3.N-1
3.N-2	Average Ability to Perceive Changes in Noise Levels	3.N-2
3.N-3	Community Response to Increases in Noise Levels	3.N-2

3.C-1 Public Health Exposure Scenarios—Inhalation.....	3.C-22
3.C-2 Public Health Exposure Scenarios—Dermal Contact.....	3.C-22
3.C-3 Public Health Exposure Scenarios—Ingestion	3.C-22
3.C-4 Effect Levels.....	3.C-30
3.C-5 Derivation of Toxicity Criteria	3.C-30
3.C-6 Example of Uncertainty Factors Naled Non-Cancer Toxicity Criteria Ingestion	3.C-30
3.C-7 Public Health Toxicity Criteria—Example of Cancer Slope Factor	3.C-32
3.C-8 Summary of Non-Cancer Risks (Reasonable Maximum Exposures) for Malathion	3.C-48
(Normal Scale)	
3.C-9 Summary of Non-Cancer Risks (Reasonable Maximum Exposures) for Malathion	3.C-48
(Logarithmic Scale)	
3.C-10 Summary of Non-Cancer Risks (Reasonable Maximum Exposures) for Naled	3.C-48
(Logarithmic Scale)	
3.C-11 Summary of Non-Cancer Risks (Reasonable Maximum Exposures) for Permethrin	3.C-48
(Logarithmic Scale)	
3.C-12 Summary of Non-Cancer Risks (Reasonable Maximum Exposures) for Resmethrin	3.C-48
(Logarithmic Scale)	
3.C-13 Summary of Non-Cancer Risks (Reasonable Maximum Exposures) for Sumithrin	3.C-48
(Logarithmic Scale)	
3.C-14 Summary of Non-Cancer Risks (Reasonable Maximum Exposures)	3.C-48
for Piperonyl Butoxide (Logarithmic scale)	

3.C-15 Summary of Cancer Risks (Reasonable Maximum Exposures) for Malathion (Logarithmic Scale)	3.C-48
3.C-16 Summary of Cancer Risks (Reasonable Maximum Exposures) for Permethrin	3.C-48
3.C-17 Margin of Exposure Analysis	3.C-52
3.D-1 Example of Conceptual Model for the Potential Risk to Natural Resources	3.D-16
3.D-2 Terrestrial Receptors with Direct Exposure	3.D-18
3.D-3 Aquatic Receptors in Ponds Exposed to Drift	3.D-18
3.D-4 Aquatic Receptors in Wetlands Exposed to Runoff	3.D-18
3.D-5 Receptors Exposed Through Aquatic-Based Food Chains	3.D-18
3.D-6 Receptors Exposed Through Terrestrial-Based Food Chains	3.D-18
3.D-7 Hazard Quotients in Ponds for Single Truck Application of Malathion	3.D-30
3.D-8 Hazard Quotients in Ponds for a Single Aerial Application of Malathion	3.D-30
3.D-9 Hazard Quotients in Ponds for a Single Truck Application of Naled	3.D-30
3.D-10 Hazard Quotients in Ponds for a Single Aerial Application of Naled	3.D-30
3.D-11 Hazard Quotients in Ponds for a Single Truck Application of Permethrin	3.D-30
3.D-12 Hazard Quotients in Ponds for a Single Aerial Application of Permethrin	3.D-30
3.D-13 Hazard Quotients in Ponds for a Single Truck Application of Resmethrin	3.D-30
3.D-14 Hazard Quotients in Ponds for a Single Aerial Application of Resmethrin	3.D-30
3.D-15 Hazard Quotients in Ponds for a Single Truck Application of Sumithrin	3.D-30
3.D-16 Hazard Quotients in Ponds for a Single Aerial Application of Sumithrin	3.D-30
3.D-17 Hazard Quotients in Ponds for a Single Truck Application of Piperonyl Butoxide	3.D-30
3.D-18 Hazard Quotients in Ponds for a Single Aerial Application of Piperonyl Butoxide	3.D-30
3.D-19 Hazard Quotients in for Aquatic Life in Boating Pond With Application of Malathion (Partitioned)	3.D-30
3.D-20 Hazard Quotients in for Aquatic Life in Boating Pond With Application of Naled (Partitioned)	3.D-30
3.D-21 Hazard Quotients in for Aquatic Life in Boating Pond With Application of Permethrin (Partitioned)	3.D-30
3.D-22 Hazard Quotients in for Aquatic Life in Boating Pond With Application of Resmethrin (Partitioned)	3.D-30
3.D-23 Hazard Quotients in for Aquatic Life in Boating Pond With Application of Sumithrin (Partitioned)	3.D-30
3.D-24 Hazard Quotients in for Aquatic Life in Boating Pond With Application of Piperonyl Butoxide (Partitioned)	3.D-30
3.D-25 Summary of Maximum Calculated Hazard Quotients	3.D-50

3.E-4 Croton Drainage Basins	3.E-4

APPENDICES*

VOLUME 1 OF 3

APPENDIX 1 DESCRIPTION OF THE PROPOSED ACTION

II — Chronological Listing of 1999 and 2000 Applications of Adulticide in Westchester County

III — Sample Actions for County Entities Under the Comprehensive Plan

APPENDIX 2 CHAPTER 2: PESTICIDE REGULATIONS AND USAGE, AND OTHER REGULATORY CONSTRAINTS

2I— Insecticide Product Labels and Material Safety Data Sheets

2II — Background Information

APPENDIX 3.A FRAMEWORK OF THE ANALYSIS

3.AI — Adulticide Characteristics and Limitations of Use

3.AII — Larvicide Component of the Comprehensive Plan

3.AIII — Air Drift/Deposition Modeling

VOLUME 2 OF 3

APPENDIX 3.C PUBLIC HEALTH

3.CI — Public Health Characteristics of Proposed Adulticides

3.CII — Exposure Analysis

Supplement A – Exposure Factors

Supplement B – Hazard Quotients and Incremental Cancer Risks by Pathway

Supplement C – Total Hazard Indexes and Incremental Cancer Risks

Supplement D – Margin of Exposure Analysis

Supplement E – Evaluation of Time-Weighted Exposures

3.CIII — Toxicity Analysis

VOLUME 3 OF 3

APPENDIX 3.D NATURAL RESOURCES

3.DI — Natural Resources in the County

3.DII — Ecological Risk Assessment

3.DIII — Empirical Studies of Adulticides

3.DIV — References

APPENDIX 3.E WATER SUPPLY

3.EI — Drinking Water Supply
