Dannon pitches in for Bailey School

Marguerite Jones, principal of the R.J. Bailey School in Greenburgh, shared this news about recent events at her school.

Earlier this year, I reported that R.J. Bailey formed a new Wellness Committee. Gayle Bluney from the Dannon Corp. organized a community service day at Bailey. On Nov. 15 more than 80 employees from Dannon walked across the street to our school to volunteer. They

cleaned the grounds, planted flowers, painted rooms and transformed the teachers' lunchroom with paint, new furniture, wall pictures and handmade floral arrangements.

They created a banner for the gym and painted the trim. All students had yogurt for lunch and attended a "health and fitness" assembly by a pro basketball player.
