
PETROLEUM BULK STORAGE

OVERVIEW

REVISED FEE SCHEDULE

(as of July 1, 2003)

On June 23, 1998, the New York State Department of Environmental Conservation delegated the authority to administer the Petroleum Bulk Storage Code to the Westchester County Department of Health.

Petroleum bulk storage facilities are defined as those facilities having a petroleum storage tank with a capacity greater than 1,100 gallons, or having an aggregate amount of motor fuels/lubricants exceeding 1,100 gallons at a single site, or any waste oil tank.

Under Article XXV of the Westchester County Sanitary Code, the Westchester County Department of Health is now responsible for registering, inspecting, ensuring inventory monitoring and tank testing and, where appropriate, requiring remediation of code violations at these facilities. Violations of the Petroleum Bulk Storage Code may result in fines of up to \$1,000 per day.

PAYMENT

Payment must be in the form of a check or money order made payable to the Westchester County Department of Health.

For additional information about the Petroleum Bulk Storage Code, call the Westchester County Department of Health, Office of Environmental Health Risk Control, at (914) 813-5161.

Registration

Registrations are valid for 5 years.

1 tank	\$300
2 tanks	\$480
3 tanks	\$600
Each additional tank	\$ 60
(Example: 5 tanks = \$720)	
Waste Oil Transfer facility	\$300

Work Permit

Work permits are valid for 60 days.

Remove/close tank	180
Install tank	132
Install/repair piping	90
Repair/recondition tank	132
Product substitution	90
Install non-stationary tank storage area	132

Variance Application

\$240

Tightness Tester Registration

Tester certificates are valid for 1 year.

Company permit, per method	\$120
Technician permit, per method	\$120
