FOR IMMEDIATE RELEASE

June 27, 2002

WESTCHESTER BEACH CLOSINGS

The Westchester County Department of Health announced today that seven beaches have been closed.

Three beaches, located in Mamaroneck, were closed due to heavy rainfall. The three beaches are the Beach Point Club, the Mamaroneck Beach and Cabana Club, and the Orienta Club. Heavy rainfall causes additional pollution from streets and storm drains to enter the water and can result in beach closures such as these. It is anticipated that these beaches will reopen on Saturday.

Four beaches, located in Larchmont and New Rochelle, were closed due to storm-related discharges into the Long Island Sound from four Westchester County pump stations. The two Larchmont beaches are Larchmont Shore Club and Larchmont Manor Beach; the two New Rochelle beaches are Hudson Park Beach and Echo Bay Yacht Club. It is also anticipated that these beaches will reopen on Saturday.
