Prepares and submits the annual operating budget for the department to the City Manager;

Prepares the annual capital projects budget;

Directs studies and reviews reports on needs as indicated;

Directs the administration of all personnel actions within the department;

Directs, gives general supervision to and makes important decisions on the operating activities of the department which include: street and highway construction and maintenance; street cleaning and snow removal; sewer repair and maintenance; sewage disposal; refuse collection and disposal; street lighting; maintenance of City buildings; building, plumbing, housing and zoning codes enforcement; water department; Engineering Department;

Supervises the preparation of specifications for materials, equipment or construction contracts, and the advertising of same;

Recommends to the City Manager awards to successful low bidders;

Inspects field operations to insure that work is performed in a satisfactory manner and recommends any necessary improvements to insure efficiency;

Inspects work performed by contractors to insure that work is performed according to specifications;

EXAMPLES OF WORK: (Illustrative Only) (Continued)

Develops long-range plans for capital improvements, directing special surveys and reports as needed;

Reviews requests for street openings and sewer obstructions which require extensive dislocation of normal conditions;

Recommends ordinances and resolutions required for public improvements and transfer of budgetary funds;

Prepares and conducts all official communications between the Public Works Department and the City Manager;

Prepares and directs the preparation of special reports for consideration and action by the City Manager;

Confers with other department heads on important matters pertinent to the Public Works Department;

Investigates complaints and confers with civic, taxpayer and other groups and individuals on pertinent matters;

Confers with the County and State personnel, commissioners of adjoining communities, and the U.S. Bureau of Public Roads;

Conducts department staff meetings and attends meetings of department heads and various committees and boards as required.

REQUIRED KNOWLEDGE, SKILLS, ABILITIES AND ATTRIBUTES: Thorough knowledge of the modern principles and practices of administration as applied to the design, construction and maintenance of highways, sewers, and other public works facilities; working knowledge of the principles and practices of civil engineering as applied to the development and management of municipal public works; thorough knowledge of the materials, methods, and techniques utilized in the construction and maintenance of streets, highways, sewers and refuse disposal facilities; ability to organize, direct and coordinate the activities of a public works department; ability to develop long-term plans and programs, and to make decisions on matters of policy and on technical and administrative problems; ability to establish and maintain satisfactory relationships with other City officials, employees, and the general public; ability to express ideas on technical subjects clearly and concisely, orally and in writing; physical condition commensurate with the duties of the position.

MINIMUM ACCEPTABLE TRAINING AND EXPERIENCE: Three years of progressively responsible experience in directing the various functions of a Department of Public Works.

SPECIAL REQUIREMENT: Possession of a Professional Engineer's license issued by the State of New York at the time of appointment.
