Source: US Census Bureau, SF3 Data. Notes: 1) Workers are a sub-set of employed persons. Employed persons may not have responded as being at work due to illness, layoff, etc. 2) Income and poverty values are for 1999 because the census asks for the past year's income. 3) Percent persons under 18, and 65 and over is a percent of their age group. 4) Does not include condominium or cooperative housing units. Average house value is self-reporting. House value is not comparable to housing sales statistics from the Westchester County Board of Realtors. 5) Cost-burdened is defined by the US HUD as those paying in excess of 30% of their income toward housing costs. Percents are a share of the tenure group. 6) The US HUD defines overcrowding as more than 1 person per room and severe overcrowding as more than 1.5 persons per room.
